

## Embrace The New Beginning

***Class I to V***

**Dear Parents,**

**24.03.2025**

We are grateful for your unwavering faith reposed in us and your consistent support during the entire period.

We are beginning afresh, hopeful for a new and vibrant session, from **March 28, 2025**. We have worked hard for developing mechanisms to equip the process of teaching-learning through Interactive Panels in order to facilitate latest learning technology.

One of the major challenges that faces us is the smooth flow of traffic outside and around the school during the entry and dispersal time of the students. In this regard, we wish to share a few guidelines to smoothen the entire process:

- Please ensure you follow the scheduled arrival and dispersal timings strictly.
- After dropping or receiving your child at the gate, kindly ensure that you move away immediately and do not park your vehicle near the school gate/ boundary.
- It is suggested that you should avoid U- turning of your vehicles in front of school gate.
- Please follow the directions given by the teachers and guards on duty outside the school gate. Remember, they are there to help children arrive and disperse safely.

***The Arrival & Dispersal Timings may please be noted  
( only for 28.3.25 Friday & 29.3.25 Saturday )***

***Above mentioned days will be 'No Bag Days'***

**PS: Please make sure that the students carry their lunch and water bottles. The school reception will not accept any lunch boxes or water bottles keeping in line with safety norms.**

We all know that the initial days might require a little more effort on either side, but our collective efforts will sail us through this challenge. Let us all work in unison for our children's safety and welfare.

Wishing you a great academic year ahead.
